Drawings

1. New corrected drawings are required in this application because the newly submitted drawings to figures 17-18 are confusing. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

The drawings are confusing and unhelpful. Per the telephone interview with the attorney on 10/9/03, attorney agrees to clarify the invention with drawings. The drawings as submitted are confusing since the cross section illustrated in figure 17 supposed to show the window wrap clearly in figure 18. however, no reference structure of figure 17 is denoted in figure 18, and it is unclear how the cross-section can result in a corner structure of window wrap.

The claims 11-45 will be examined with respect to art pending the corrections to the drawings.
